

BloodSTOP®

CONTROLS BLEEDING INSTANTLY

Description

BloodSTOP® is a revolutionary water-soluble hemostatic gauze which literally stops bleeding in a matter of seconds – whether from a minor wound or major surgery. Upon contact with blood, BloodSTOP® speeds coagulation and expands into a gel that adheres to the surface while applying pressure on, and sealing, the wound. The protective see-through seal aids in wound monitoring, eliminating the need to remove and attach bandages. BloodSTOP® is 100% natural cellulose, promoting faster healing than other products. BloodSTOP® is ideal for all patients, but especially those with bleeding problems, such as patients on blood thinners, smokers, and hemophiliacs.

Benefits

- Stops bleeding up to 4X faster than other methods, and promotes faster healing.
- Stabilizes most minor lacerations and wounds due to its tensile strength.
- Provides wound protection through its protective gel seal.
- Environmentally friendly, hypoallergenic and biologically inert.
- Easy to handle, lightweight, dry & completely portable.
- Easy to use, cut to fit various wound sizes and difficult areas.
- Easily removed with sterile water or saline solution, reducing pain and rebleeding.
- More cost-effective compared with other hemostatic products
- Sterile & easily opened packaging with a long shelf life

BloodSTOP Basic (external use only; thicker gauze fibers)

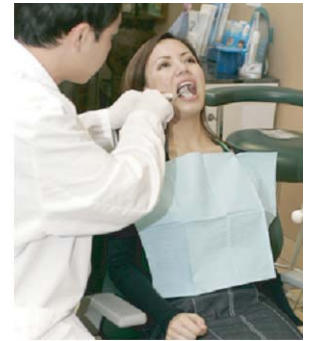

BS-10	2x2in	5x5cm	20/box
BS-11	2x4in	5x10cm	20/box
BS-12	4x4in	10x10cm	10/box
BS-13	4x8in	10x20cm	10/box
BS-MP18	0.5x0.5in	1.3x1.3cm	80/box

BloodSTOP-Plus iX (finer gauze fibers; coagulates faster than Basic)

BS-iX-27	0.5x2in	1.3x5cm	24/box
BS-iX-14	2x2in	5x5cm	12/box
BS-iX-15	2x4in	5x10cm	12/box
BS-iX-17	4x8in	10x20cm	12/box
BS-iX-20	2x14in	5x35cm	12/box

Forms a transparent gel quickly upon contact with blood

New Innovation!

Faster bleeding control and more effective healing than traditional methods

Typical Uses

- Minor cuts/lacerations
- Sports injuries
- Nosebleeds
- Dialysis/IV users
- ObGyn
- Diabetes patients
- Military/Law enforcement
- Emergency care
- Dentistry/Oral surgery
- Surgery
- Veterinary
